Strong:

JavaScript (ES5/ES6), HTML5, CSS3, React.js, Node.js, Express.js, PostgreSQL, AJAX, Flexbox, HTTPie

Experienced:

Agile Methodology, UX/UI Design, OOP, Accessibility, Relational Databases

Tools:

Git, GitHub, VS Code, Figma, Chrome Dev Tools, React Dev Tools, Canva

APPLICATIONS DEVELOPED

Recipe Toolkit,

Application developed that allows users to add recipes to a favorites list and create a shopping list 📄

- Engineered a search feature by requesting data from a public API and implementing AJAX to display query results
- Utilized JSON to store data and retrieve data from previous sessions to ensure that on page refresh, user's search results remain
- Implemented event listeners in JavaScript and DOM manipulation that allow users to add/remove ingredients to a shopping list and favorites list
- Created an anchor element that allows users to view the recipe information, nutrition, and directions in a new tab utilizing HTML and JavaScript

Student Fuze,

Application developed that allows educators to record Student Study Team (SST) meeting notes 📄

- Created a search feature by utilizing GET methods to query database to retrieve data on the server side, a react component to handle the client side, and Material UI component library
- Users can add students into the database utilizing input fields with a POST method on the server side
- Users will be able to add entries for each student to include notes, referral information, and support information utilizing a POST method on the server side and react components on the client side to handle input states
- Entries for each student can be edited or deleted by user with a PATCH/DELETE method on the server side with react components on the client side to handle input states

PROFESSIONAL EXPERIENCE

School Counselor, Garden Grove Unified School District

08/2021 – 06/2022 | Garden Grove

- Created and led master scheduling organization utilizing Aeries database while collaborating with school staff
- Conducted and led conflict mediation between students, crisis intervention, and academic intervention meetings
- Supported and lead student groups that targeted social skills, peer relationships, bullying, and regulating emotions
